

Clark Forklift

Clark Forklift Forklift Training - Performing worldwide, there are at this time 350,000 Clark forklifts and lift vehicles in operation, with in excess of 250,000 of those in service in North America. Clark has five main lines of lift trucks across the world, making it one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 exclusive models of forklifts, with components covering more than 120,000 specialized items for all of its automated equipment. Your local Clark Seller is your total source for availability of all your components needs supplied by Clark Totalift.

Clark features a exceptional Parts Distribution team. The components warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their customers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Motivated to supply the highest level of value and service to our customers, Clark remains on the leading edge when it comes to improving output and benefiting performance.

Worldwide, Clark has one of the most impressive dealer support networks. With over 550 locations worldwide, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their customers predominates the material handling industry.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of modernization in the industrial equipment and automated lift truck industry. This exceptional commitment to safety is now a standard feature on every forklift.

Clark has a relentless mission to possess the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be internationally certified with quality standard ISO 9001 in all of its manufacturing facilities. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any number of environmental restrictions, thus placing them in a prevailing market position.

Resource Efficient Manufacturing

Clark has chosen the particularly economical and advantageous structure of "Lean Manufacturing" for its assembly facilities and application of resources. This system was established to acknowledge the most efficient method of manufacturing facility stewardship and ensuring maximum efficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Engine Design

By working together, Clark's product suppliers and engineers communicate towards enhancing product effectiveness while minimizing expenses. The contemporary value engineering program combines progressive product development and delivers superior client support and service within the industry.
